## BOGUS STAMPS.

Of late we have heard considerably regarding the printing and offering of stamps of an audacious nature. These facimiles of postage stamps are in some cases excellent imitations of the original, being done by an entirely new process.

Some of our readers no doubt will remember the case a few years ago of printing counterfeit bills, done it was said by photographic process, the printing of which almost defied experts; so it is with some of these facsimiles, they are extra good imitations, nor are they only confined to one country, but nearly every stamp issueing country is represented. The paper, colour, perforation, cancelation, and surcharges etc., are likewise of an equally faithful imitation.

The principal factories for the manufacture of these stamps are in Italy and Switzerland, and the proprietors are in no way backward in advertising their goods as par excellent.

From time to time stamps of various countries have been forged, amongst which was the five franc green of France, this was detected by a junior postal clerk who noticed that the stamps did not adhere properly.

The one shilling green of Great Britian was also forged and used both for postal and revenue purposes, while some value of the stamps of Chili are said to have done postal duty a way up in the thousands above the number issued by the government.

The price generally asked for these facsimiles is about one tenth of catalogue, which is quoted as cheap considering the quality of the goods. We know of some English firms who will not handle these stamps even when they have done postal duty and marked reprint; others will only sell them when reprint is marked on the back.

While these reprints may be justified under certain conditions being space fillers and giving one shilling collections a finished appearance, also as a guide to the detection of facsimiles, still without something to denote their character they are a disgrace to Philately.

## Sale Superintendent's Report.

Manitowaning
Feb. 24 1906

Dear Fellow Members,

Some of you will wish to know what the Sales Department is doing; not so badly, but it would be a greater success if all the members supported it. There has been a fine lot of good stamps pass through the Department at low prices. So far seven circuits have been sent out amounting to $507.58, sales so far amount to $62.64. The small percentage is due to the fact that so many of the stamps were fiscals and unsaleable.

Don't forget that the Superintendent cannot make this department of your society a success without the co-operation of the members. Don't forget too that others are picking up the bargains that you might share in if you were on the list of those desiring circuits, and that you can have them sent you by dropping a request to the Superintendent. No member is compelled to buy from books on circuit, the only expense involved is the cost of postage to next on list. This is well spent as those receiving them soon find out.

Keep on the Department and build up your collection.

Yours sincerely,

A. J. Young.

ARE YOU ON CIRCUIT?

## HINTS OF VALUE.

continued from page 48

**Native paper** May be laid or wove and is made from silk or rice straw, can be easily distinguished.

**Parchment paper** The skin of sheep or goats prepared for writing on.

**Ribbed paper** Shows paralel lines on back and front, made by passing it through heated rollers. May be either wove or laid.

Paper is also defined as hard, soft, brown, thick or thin; also by it's colour as orange, pink, cream, amber etc., or it may have a thin coating easy to wash off as enameled post-cards etc. often are coloured with a very sensative dye. Each of these varieties are a subject that to do it justice should be written of separately.

Thus we find that we have wove paper with an even texture through-out also with small fine light spots, while laid paper on being held to the light may show light and dark lines of even thickness, either straight or wavy, or may be square, rectangle, or diamond.

While writing of this subject we might here mention that according to the best authorities, paper was first made in Egypt, centuries before the christian era. It was first made of cotton 600 A. D., and in 1300 of rags.

The Holbein family of Ravensburg, Swabia, are credited with the invention of making paper of linen and rags, while Mr. Joseph

## VIEW CARDS.

In order to keep our readers informed regarding new issues of Pictorial Post Cards and other Novelties of interest to Collectors, we will, if Publishers or Manufacturers send us samples, make special mention of same.

We are in receipt from F. B, Wilson, Kirkville. Mo., of a set of view cards representing the Brazilean section Universal Exposition St. Louis 1904, also his catalogue of souvenir and comic postcards. The cards are in half tone and are interesting and instructive.

We would call attention to the advertisement of the Eurret Post Card Co. This firm writes us that they are receiving repeated orders and are constantly adding new lines to their stock.

## The Standard Postage Stamp Albums All the World in One Volume.

Compiled and fully illustrated on an entirely new system.

A seperate designed space for every stamp and all spaces numbered to correspond with our catalogue.

This splendid work has taken more than two years to compile, and the cost of production far exceeds that of any other stamp albums published.

Nothing like it has ever been attempted. Stamp collecting is made easy and delightful by using the "Standard" Album and Catalogue.

All the series are exactly the same in system of arrangement; the difference in price is for different qualities of paper and styles of binding.

First series: Printed on one side of the paper only, all left-hand pages entirely blank, 700 leaves or 1400 pages.

Second series: Printed on both sides of the paper, about 700 pages.

Third series: In two volumes, Vol. I contains spaces for stamps of Great Britain and Colonies, Vol. II for all foreign countries.

All the series are supplied in various styles of binding, full particulars and prices of which we shall be pleased to send on application.

## The Universal Standard Catalogue of the Postage Stamps of the World.

Only standard varieties are listed, minor varieties and perforation measurements are wholly excluded.

PRICE 40c,

EXTRACTS FROM CONSTITUTION.

ARTICLE III Sec I. Any person of good recomendation and social standing may become a member by applying to the Secretary, providing said application is signed by two persons as references. One of these must be a member of the society, if the other is not a member he shall be a responsible citizen of the applicant's place of residence. The Secretary shall then cause the name and address of the applicant together with the names of his references to be published in the Offical Journal, and if no member files objections with the Secretary within 15 days after publication of said Official Journal, the applicant shall be considered elected, and shall receive membership certificates on payment of dues.

DUES; The dues of the Society shall be 25c per year payable January 1st in advance. The fiscal year shall commence January 1st.

If application is sent between January 1st and May 20th send 35c. Between May 20th and June 20th—32c. June 20th and July 20th—29c. July 20th and Aug. 20th—26c. Aug. 20th and Sept. 20th—23c. Sept. 20th and Oct. 20th—20c. Oct. 20th and Mar. 20th 17c. Nov. 20th and Dec. 20th—14c. This pays fee, and dues until January 1st next.

BENEFITS DERIVED FROM MEMBERSHIP.

1. All members receive every month, free of charge a copy of the Official Organ, in which magazine the reports of the Society are published, the regular subscription price of which is 25c so this benefit alone nearly equals the cost of membership.

2. The members meet in convention each year, and anyone who has attended a Convention of any Philatelic society knows that it is something to look forward to. You learn more about stamps in one day at a Convention, than you can in a month by yourself.

3. Members have the use of a fine Sales Department. Through this department you can buy and sell stamps. You send your stamps on books to the Sales Superintendent who forwards them to a number of members who invariably buy generously. In turn you receive another members's books to buy from.

4. The association has, besides many other benefits, a Library, a Counterfeit Detector, and an Attorney who collects all bad debts for members at a cost of 10 per cent.

Stamp collectors are cordially invited to join the association which is the largest society of its kind in Canada. Dues are only 25c a year, and the benifets are innumerable.
